

HDMI 2.0 Locking Cable Assemblies

THE FUTURE OF CONNECTIVITY

Amphenol CIT offers the latest in high-performance HDMI 2.0 cable assemblies for aircraft cabin management. Fully qualified to support 4K ultra high-definition displays at 60 Hz, these cable assemblies are made to order in customer-specified lengths. In addition, cables can be configured with or without locking accessories to secure against vibration and ensure reliable performance in an aircraft cabin environment.

Amphenol CIT also offers:

- » Single-end terminated cables
- » Separate connector kits to handle challenging installation locations and routing
- » Completely custom assemblies with special labeling
- » Additional protective sleeving
- » Color coding and other unique features (available upon request)

Our application engineering team is always ready to help design the perfect cable for your application.
